

An Invitation to 18 - 25 year olds to a Screening of the Documentary Film

The Letter

The Letter a beautifully crafted documentary which brings us into the lives of people facing the consequences of the climate crisis. By listening to their stories, we can hear the cry of the earth and the cry of the poor.

It takes us to a threshold where we have to consider our relationship with creation and, not only decide how each one of us can respond but also how we can unite in working together for the earth and for future generations
